b. Finance Charges (Interest Charges)

- Interest will be charged if you (the word 'you' refers to the Cardmember) do not pay back the previous bill in full and also on all Cash Advances from the date of transaction until the date of settlement.
- Your rate of interest initially is 3.15% per month (i.e.37.8% annualized). This can change periodically based on your spend, payback and utilization patterns. Your rate of interest can increase upto 3.5% per month (i.e.42.0% annualized), in case of default. The default interest rate will apply till the time the account is regularized plus 3 months of performance review period.
- For Cash withdrawals, your rate of interest is 1.5% per month (i.e. 18% annualized). This rate will be applicable from the date of withdrawal till the date that this amount is billed to the credit card statement. Post billing, the regular interest rate as applicable will be charged, thereafter.
- If you avail of more than one credit card from Citibank then interest rate applicable on the new card will be same as the existing card, irrespective the type of card/class that you choose as your 2nd card. Essentially, the interest charges will be applicable at the customer level and not based on the card type.
- All charges are dynamic and are subject to change based on bank's periodic review.

Illustrative Example for Interest Calculation:

Assuming that you have only partially paid your February outstanding, and your statement is generated on 17th March for Rs. 5000. You make a payment of Rs 2000 on 25th March. And you make a purchase for Rs 1000 on 30th March. You make no further payment on your Card till 17th April. In this example, interest will be levied as follows:

On the balance of Rs 5000 (17th - 25th March) for 8 days: $(37.8/365) * 8 * 5000 / 100 = \text{Rs } 41.42$

On the balance of Rs 3000 (25th - 30th March) for 5 days: $(37.8/365) * 5 * 3000 / 100 = \text{Rs } 15.53$

On the balance of Rs 4000 (30th March - 17th April) for 18 days: $(37.8/365) * 18 * 4000 / 100 = \text{Rs } 74.56$

Total Interest charged = Rs 131.51

NOTE: If you spend Rs.5000/- and you pay back exactly the minimum amount due every month, then it may result in repayment stretching over 6 years with consequent interest payment on the outstanding amount. Therefore, you should, whenever your cash flow allows pay back substantially more than your minimum due. This will also help open up your spending limit & improve your credit rating.

Late Payment charges are applicable if the Minimum Amount Due is unpaid after the Payment Due Date.

Illustrative Example for Calculation of Late Payment Charges:

Assume you receive a statement for the period 16 Oct – 15 Nov, with a payment due date of 3 Dec for an outstanding balance of Rs. 5000. You need to pay at least the minimum amount due i.e. Rs. 250 in this example, by the payment due date (3 Dec) to ensure that no late payment charges are levied. If you fail to do so, then late payment charges would be levied based upon the total amount outstanding on the card, as per the following bands:

Rs.300 for bills upto Rs.10000

Rs.600 for bills from Rs. 10001 - 25000

Rs.700 for bills above Rs.25000

Thus, in the example detailed above, if you make a payment only on, say, 7 Dec, Rs. 300 will be levied as Late Payment Charge. This charge will also be applicable if you make a payment of less than the minimum amount due (Rs. 250, in this example) by the payment due date.

c. Interest Free (Grace) Period: The Grace period could range from 17 to 55 days.

Illustrative Example for Grace Period Calculation:

For a statement for the period 15 Nov to 15 Dec the payment due date is 6 Jan. Assuming you have paid back your previous month's dues in full, the grace period would be:

1. For a purchase dated 16 Nov; interest free grace period is 16 Nov to 6 Jan = 52 days.
2. For a purchase dated 14 Dec; interest free grace period is 14 Dec to 6 Jan = 24 days.

Thus, the grace period can vary depending upon the date of the purchase. However, if you have not paid the previous month's balance in full or if you have availed of cash from an ATM, then there will be no interest free period.

2. LIMITS

The Credit Limit and Cash Withdrawal Limit are communicated to you at the time of delivery of the Card and are also indicated in the monthly statements. The available Credit Limit at the time of generation of each monthly statement is provided as a part of the said statement.

3. BILLING

a) Statement: The bank will send you a monthly statement, showing payments and transactions for the month, provided the Card has been active during the said period. The statement would be dispatched by physical mail or email to your mailing address as per our records.

b) Your monthly payment should cover at least the Minimum Amount Due. Your current Minimum Amount Due is calculated as 5%* of your balance outstanding OR the sum of all installments, Interest/other bank charges, the amount utilised over the credit limit, if any and 1% of remaining balance outstanding, whichever is higher. Any unpaid Minimum Amount Due from previous statements will also be added to your current Minimum Amount Due to arrive at the Total **Minimum Amount Due**.

* This can vary for specific card types, is subject to change from time to time and will be notified accordingly.

If a part payment is made, there would be no interest free period and interest charges would be applicable (including on fresh purchases, if any) via an average daily balance method

c) Payments received against your Card outstanding will be adjusted against all taxes, fees and other charges, interest charges, cash advances and purchases in that order.

d) Methods of Payments: Payments towards the Card Account may be made in the following ways:

If, on completion of subsequent investigations, the liability of such charges is ascertained to be to your Card Account, the charge will be reinstated in a subsequent statement and a fee of Rs. 100 will be charged.
